

EPIC FORMULAS. BLOCKBUSTER SAVINGS. PERFORMANCE ON AND OFF THE BALANCE SHEET.

When you launch a new endeavor with more than four decades of experience behind you, it's because you've made a breakthrough. We've formulated and sold top performing brake linings. Now we're shipping orders smaller than a truckload within 3 days. A turnkey supplier, essentially, so your cash isn't tied up in inventory for months, and you have what you need to perform better.

20K

TF20

Our standard 20K block with tons of upside. Formulated with choice raw materials, it delivers where others stop short (by design).
STANDARD /// A.L. 165

TF204

Our reliable, heavyweight block for routine service. A glass fiber base for uniform braking, longer wear on medium- or long-runs.
PREMIUM /// A.L. 165

25K

TF660

Orange is the new green, as in, savings: A high-friction, organic block ideal for ABS-equipped trucks when a semi-metallic is too risky.
EXTRA-DUTY /// A.L. 165

23K

TF34

We understand the demand for standard 23K blocks, but we formulated ours to perform like a premium anyway.
STANDARD /// A.L. 165

TF320

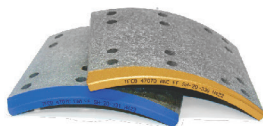

One of our favorites. Powerful braking without being too aggressive. Ideal when demands are greatest across the board.
PREMIUM /// A.L. 165

TF440

Here we beefed up a block using enriched aramid fibers to answer reserve braking & fast stop demands. Ideal for bus/transit.
SEVERE-SERVICE /// A.L. 165

TFCB

Dual semi-metallic blocks that resist fade under the heat or in the water. Two organic blocks improving wear, drum life, safety.
SEVERE-SERVICE /// A.L. 165

TFSM

A high-density, semi-metallic formula to combat foreign particle impregnation from dust, dirt and grit. Longer life, happier stops.
SEVERE-SERVICE /// A.L. 165

Proven, proprietary formulas reflecting 40+ years of heavy-duty brake industry experience and know-how, linings are RSD compliant and met SAE J22975 & J866 rules and guidelines before they were adopted into law by California & Washington states.
